Design

Classic Black

Golden Pink

Silver Grey

Your Favorite Color?

DIZO Watch R comes with 3 variants with different colors of straps and metal frames. Which one suits your style?

Design

Clearly Tougher

The fashionable 45mm dial is surrounded by a premium metal frame that not only gives you an elegant touch but also protects your watch from damages.

The exquisite 2.5D curved glass boasts 7H hardness and an anti-fingerprint coating, showing the content on you watch clearly while guarding the surface from scratches and smears.

And Clearly Thinner

AMOLED smartwatch is usually thinner than normal TFT-LCD watch due to the removal of the backlit pannel, but our engineers didn't want to stop there. We've redesigned the watch inner structure and made DIZO Watch R body only 9.9mm thin², the slimmest in the price segment, so that it won't look clumsy and you won't feel like wearing a burden.

Monitoring

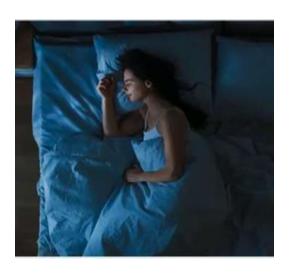

DIZO Watch R can help to conduct these monitoring

Blood Oxygen Monitoring

Real-time Heart Rate Monitoring

Sleep Monitoring

Blood Oxygen Monitor

What is blood oxygen?

Blood oxygen level is the amount of oxygen circulating in the blood. It can be a comprehensive known reference data for medical treatment

Who need to pay attention to blood oxygen situation?

Snoring people

When drinking

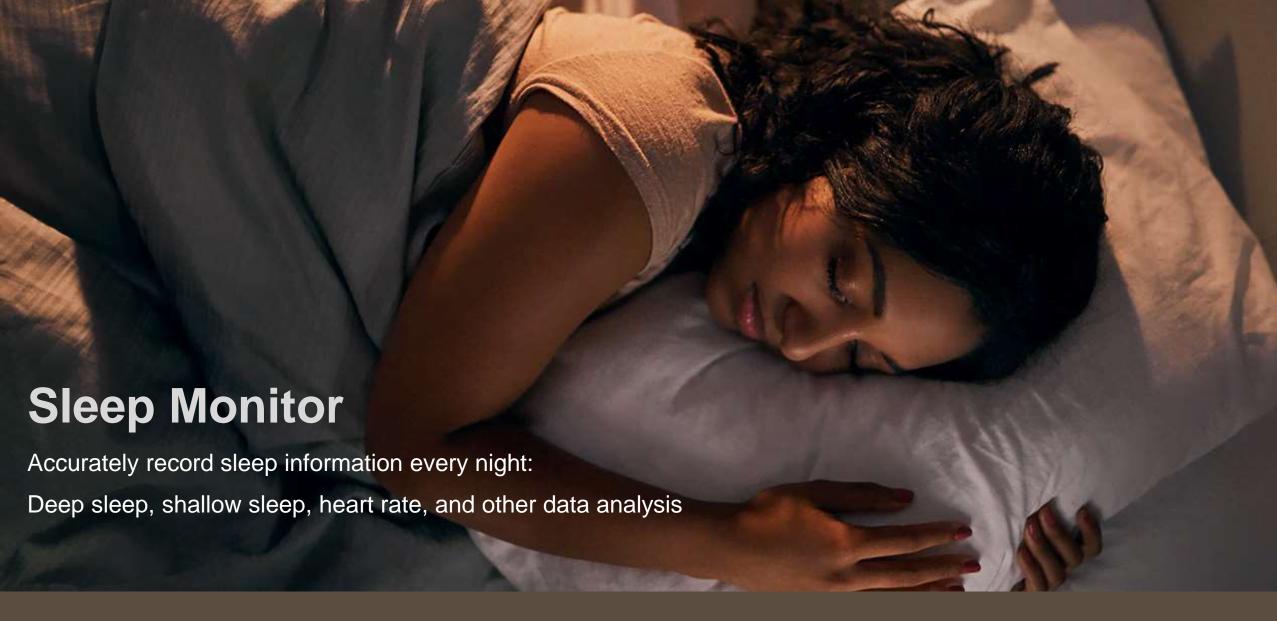

Excessive mental workers

Elderly or ventilator users

It helps you to adjust sleep habits and improve sleep quality

Keep Track of Your Health

Heart Rate Monitor

The high-precision PPG sensor can monitor your heart rate 24x7 and help you know your fitness more accurately.

Monitor

Blood Oxygen is an important health indicator. DIZO Watch R can track and show your SpO2 level to keep your health under control.7

Drink Reminder

water and relax

More Health Function

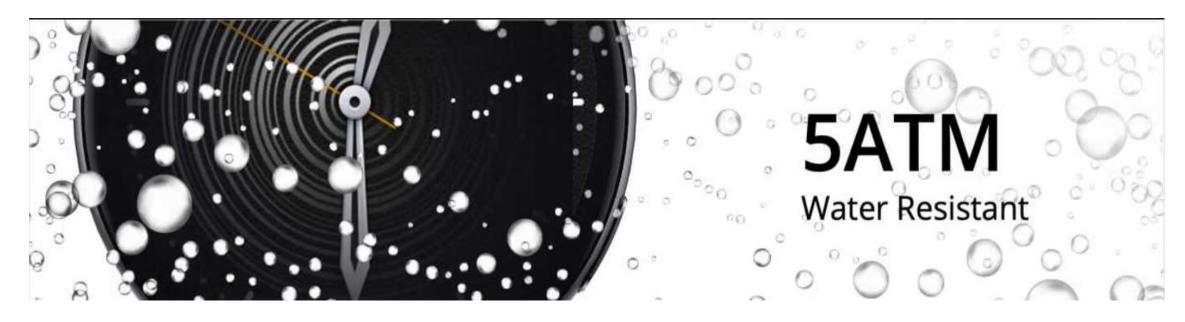

Monitor the time of your deep sleep and light sleep to have better rest and stay vigorous.

5ATM Water Resistant

Do not need to take off the watch when Swimming. Meanwhile, no need to worry about sweating when exercising.

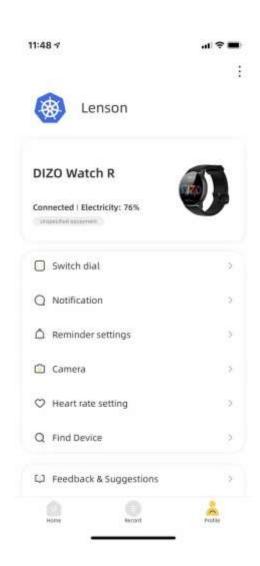

Note:

- 1. Waterproof function is not permanent, the protection performance may be reduced due to daily wear and tear.
- 2. The watch cannot be operated underwater, and it should be wiped in time after swimming.

DIZO App 2.0

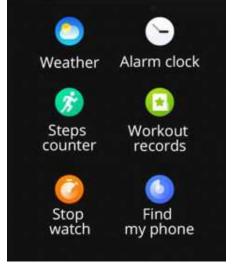

DIZO APP Upgraded

Enjoy DIZO App 2.0 that features brand new UI, watch settings, workout reports sharing and even running route tracking.

More features for you To explore

The watch cannot be charged or is charging abnormally

- 1. the device does not charge after the movement may be because the device in contact with the skin when the residual sweat did not disappear, can manually wipe the device charging port with paper or fabric and try again.
- 2. regular alcohol wiping of the charging contacts of the device can play a certain maintenance role on the charging port of the device and extend the service life.
- 3. to keep the device stationary during the charging process, otherwise the charging cable will easily detach from the device resulting in the device not being charged.
- 4. if the charging port of the device still can not be charged after wiping, please check whether the charging cable is damaged.

Why the data is not synchronized?

- 1. Please ensure that the watch and DIZO app are connected when you are exercising or monitoring.
- 2. automatically synchronize data when connected and the app is opened.
- 3. After you finish exercising or monitoring, please pull down the home page of DIZO app to refresh, so that the latest data can be synchronized and updated.
- 4. If you still can't synchronize, please switch the Bluetooth on and off once or restart the app and try again.

Heart rate and SpO2 are monitoring when not worn

In order to ensure the accuracy of the monitoring data, DIZO technical team collects data for different people and makes relevant optimization on the sensor algorithm, which may cause the sensor to be too sensitive and lead to the situation that the object is incorrectly monitored. Please don't worry and feel free to use the monitoring function, and thank you for your support and understanding.

No message notification

- 1. ensure that you have allowed sharing of system notifications when connecting to the APP for the first time.
- 2. make sure that the notification alert switch in the APP is turned on.
- 3. make sure that the current page of the phone is not in the message screen in the App.
- 4. make sure the message can be prompted in the notification bar of the phone normally, the device message push is by reading the phone notification bar message; if the phone notification bar is not prompted, the device will not receive the push.
- 5. Make sure the device and APP are not in Do Not Disturb mode or not in Do Not Disturb mode setting time.

Android system notification bar message permission setting:Settings->>Applications->>Select the corresponding application->>notification in the settings.

- iOS system notification bar message permission settings:Settings->>Select the application->>Notification in the settings.
- 6. Make sure the Bluetooth of your phone is on and the Bluetooth of your watch is linked.

Can I wear this watch while swimming?

It can be used for daily life, swimming, snorkeling, etc. It is not suitable for diving, seawater, diving, hot tubs, sauna, other wading or deep water activities under high speed water; leather and metal straps are not suitable for swimming.

Waterproof function is not permanent, the protection performance may be reduced due to daily wear and tear, the watch cannot be operated underwater, and it should be wiped in time after swimming.

Fail to connect DIZO Watch R to my phone/ Fail to pair with DIZO APP

- 1. please try to turn off the Bluetooth of the cell phone, turn it back on and then connect.
- 2. please try to reboot the device and then connect.
- 3. please try to restart the App and then connect.
- 4. Please try to reboot the phone and open the app before connecting
- 1. ensure that the device is in a connectable distance from the phone.
- 2. ensure that the watch is not in power saving mode.
- 3. reconnect after restarting Bluetooth.
- 4. Unbind the device and then re-bind it.

Thanks

Lenson.Li DIZO
